

KEISER STRENGTH

A300 RUNNER

Model 3232

LOWER BODY MACHINES

ACCELERATION, SPEED, AND POWER

The Runner places you in a position that simulates the acceleration phase of a sprint. Professional athletes everywhere use the Runner to train for acceleration, speed, and power endurance. This unique piece of equipment will improve the power and performance of any individual looking for a competitive edge.

KEISER DYNAMIC VARIABLE RESISTANCE

Keiser's Dynamic Variable Resistance is designed to provide a smooth consistent Variable Resistance force curve at any training speed. Each machine has its own unique Variable Resistance curve designed and tuned perfectly for the muscles being used in that particular exercise. For users, this means that working out any speed, you'll always be training at maximum efficiency.
